Whenever

Message from the President

Spring has sprung and so have all the activities. I think Hams get Cabin Fever and that's why there are so many activities starting in the Spring. I'm looking forward to several activities before I have go out of commission for a few weeks with hip surgery in May. Maybe it's a good time to get in some operating time in the shack while stuck at home.

Several GARS members got CW fever last Fall and enrolled in the CW Academy. You might ask what gave us the bug to dive back into CW after many years. Dave (W4DTR), Earl (AF4FG) and myself got our notices in December that our eight week, sixteen lesson classes would start in January. I think the three of us probably started as Novices way back when and CW was our primary mode for our first QSOs. I'll never forget how nervous I was calling CQ for the first time with my straight key. It probably took a few CQs, but when that first contact answered WN4QDX, I was on top of the world. I admit I've done virtually no CW since the 70s although passing my General at 13 WPM, but watching Paul, Vaden, Sid, Mike and others working CW at activities rekindled the fire. My goal was to get back some speed that I could contribute making some CW contacts at Field Day and other events.

Dave and I were lucky enough to have our own Vaden McDonald (NN4K) as our Mentor and Instructor with Earl working with another Instructor and group. I really can't thank Vaden enough and all the volunteers at CW Ops that take the time to mentor groups and create new (or reborn) CW operators. I'm not where I want to be yet with my code speed, but I'm working on it. If you've ever thought about getting into CW or dusting off the old key or paddles, CW Ops and the CW Academy is the way to go.

Speaking of getting on the air, the Alford Memorial Fox Hunt and Barbeque is this weekend. Now there's dusting off and using some DF skills to find the fox. The following weekend is the Georgia QSO Party on April 14th and 15th. Come on out on Saturday morning after the GARS Breakfast for setup with operating starting at 2:00pm.

We just concluded another successful Technician HamCram with ten new Technician licensees awaiting their callsigns. Ralph (KJ4CNC) and I spent a day with

"We just concluded another successful Technician HamCram with ten new Technician licensees awaiting their callsigns. Ralph (KJ4CNC) and I spent a day with eager students."

eager students. I hope they will join us for May Madness where new GARS members can meet the OM's (old members) on the air. May Madness starts on May 4th at 6:00pm so plan to get on the air and make contacts with GARS members wherever you can. Thanks to Earl, AF4FG, for serving as Chair this year for May Madness.

Switching gears, I am anxious to see how an antenna experiment works at the

Georgia QSO Party and how it might work for our upcoming Field Day. Our Field Day Chairman, David (KA4KKF), is eager to try using one common receive antenna for all our operating stations to minimize the interference we get between stations. The idea is to use one

receive antenna located as far away as possible from the transmit antennas for each band. To make this work, we must have HF rigs that have a separate RX antenna port. I love my IC-7300, but it doesn't have a separate receive antenna port. Fortunately, a clever invention for the IC-7300 allows creating a separate receive antenna port without any drilling or soldering and is really plug and play to install. My kit is due in this week and I'm anxious to see how it works. I can still operate with one antenna for TX and RX when I want but can have a separate receive antenna port by just removing a short RF jumper on the back of the rig and plug in the receive antenna. It'll be interesting to see how it works for the Georgia QSO Party as a trial run for Field Day.

Don't forget it's also a great time to get any wire antenna work done before the leaves come out and make it more difficult to get the wire through the trees. Isn't Spring a wonderful time!

73, *John Davis*, WB4QDX

"It is not the class of license the Amateur holds, but the class of the Amateur that holds the license."

The *GARzette* is the official monthly newsletter of the Gwinnett Amateur Radio Society, serving its members and other persons interested in the advancement of the Amateur Radio art.

Original articles, art, and photos are invited and encouraged. Previously copyrighted submissions cannot be accepted for reprinting unless permission from the appropriate publisher is provided in writing along with the information being submitted. If reprints are from publications allowing their unrestricted use, please include a copy of the printed permission contained in the publication.

If possible, bring your articles to the monthly meeting in Microsoft Word or rich text (.rtf) or text or HTML format or by e-mail to editor@gars.org. Artwork can be accepted in most any graphics format and can be submitted via e-mail to the same address. Alternate means of submittal can be arranged when necessary.

In keeping with the Amateur Radio spirit, permission is hereby granted for the reproduction of The *GARzette* articles by other Amateur Radio club newsletters provided that proper credit is given to the individual author and *The GARzette*.

The GARzette is published each month with the assistance of Norm Schklar, WA4ZXV who prints copies for distribution at meetings, etc. and Dave Bruse, W4DTR, who distributes the news letter electronically.

Deadline for submissions is the 28th of each month for inclusion in the following month's issue.

Newsletter Editor: editor@gars.org Bill Eggers—WB2RIS 470-238-9603

Member QRZ Pages

For several months we will be featuring the QRZ page of various members of GARS.

This month we are featuring the nonexistent QRZ page of :

DR3VIL - Dougie Powers

When you click on the link below you won't find this picture.

<http://qrz.com/lookup/DR3VIL>

Read the notes and get to know him better. However, you might regret it.

Here is an excerpt from the nonexistent page:

After graduating from Evil medical school, I earned my Extra Evil Class Amateur Radio license. I enjoy all things evil in Amateur Radio, especially Fox hunts, where my brother Austin is the fox, and the hounds are ill tempered, with frickin' laser beams attached to their heads.

From my underground lair, I have successfully threatened over 150 DXCC entities with mayhem and nuclear devastation. My experience with EME contacts has helped me turn the Moon into what I call a "Death Star".

In 2017 I completed my coveted evil milestone of causing interference to ONE MILLION QSO's!

Watch for a real GARS member's QRZ page in next month's GARzette!

News, Press Releases, & General Interest

Be sure and catch our own Norm Schklar, WA4ZXV on Ham Talk Live Thursday evening April 5th at 9:00 PM. The subject will be "Hamvention Preview: Four Days in May".

An archive of Ham Talk Live episodes is available at

<https://www.spreaker.com/show/ham-talk-live>

What Makes GARS So Great?

It's hard to believe that I've been an Amateur Radio Operator 10 years, already (March 2008). I can still remember my first GARS meeting. Norm Schklar was president at the time and I chuckled at his irreverence towards Robert's Rules of Order. I remember meeting Paul Kelly, Dozier, and Doug Kregel. They all made me feel right at home and answered an incredibly long list of silly questions.

Over the years it became quite obvious to me why GARS won Dayton Hamvention's Radio Club of the Year Award. GARS is very active in the radio community. It seems like there is a never-ending list of activities that keeps our club vibrant. Some of the activities support and grow the hobby, such as: The Atlanta Science Fair, Makers Faire, HamCrams, School Clubs and VE sessions. Other activities support our community, such as: Dacula Memorial Parade, Jail Break Challenge. Our club is supported financially by our work with the Cherokee Rose Dog Shows. But most of our activities revolve around having just plain radio fun, such as: TechFest, Winter Field Day, GA QSO Party, May Madness, ARRL Field Day, local hamfests and on and on.

The common denominator in all the activities is the volunteers. Over my ten years in the club it has become very apparent that with a few exceptions there is a core of about 12-15 volunteers that are pulling most of the weight. This year alone we have had two activities that were short-handed adding to the burden (Dog Show, Atlanta Science Fair). In addition to the larger projects listed above, there are many routine jobs in support of our monthly meetings that could use some help.

This is a call for help. In addition to relaxing the burden on the volunteers we have, adding "new blood" to the group can bring in new ideas, continuing the club's vitality. If you are approached by one of the GARS Executives and asked to volunteer, please say yes.

Ralph Pickwick KJ4CNC
GARS Volunteer

[Ed.—Here are some positions we are looking to fill:

HELP WANTED

Meeting Drinks - A volunteer is needed to bring water and drinks in a cooler to the GARS Meeting. We offer a free drink to first time visitors and drinks for \$1.00 go to our Scholarship Fund. GARS will pay for drinks and ice to the person bringing the drinks to our meeting.

2019 Georgia QSO Party Chairperson - A volunteer is needed to organize and coordinate next year's Georgia QSO Party in April, 2019. The chairperson will schedule the facility, recruit station captains and volunteers to organize food and antennas.

If you're interested in volunteering for one of these positions, please contact one of the GARS Officers. Supporting GARS activities is an important part of what we do and the help of club members is needed.]

Sid Weaver, N4NQ (Co-CVE)
Yolanda Pence, KM4AAQ

Thanks & 73,

Dane Bruce, W4DTR (CVE), GARS VE Team Leader

GARS Happenings (cont'd)

Join us for the 2018 Georgia QSO Party April 14th and 15th, 2018

The Georgia QSO Party is sponsored by the [South East Contest Club](#) and [Southeastern DX Club](#).

Georgia QSO Party (GQP) has been challenging amateurs all over the world with the best award/plaque program in the US. Hopefully all 159 Georgia counties will be on the air this year. The GQP is held in a pair of ten-hour sessions on the second full weekend in April; this year that will be April 14th, 15th, 2018.

For more information about the GQP, go to [Georgia QSO party](#)

WHEN:

Saturday, April 14, 2018 – 9:30AM – 8:00PM Local

Sunday, April 15, 2018 – 9:30AM – 4:00PM Local

WHERE:

EAA 690 Hangar

690 Airport Rd

Lawrenceville, GA 30046

Lat/Lon ==> 33.9794285N / 83.9682776W

Map ==> <https://goo.gl/maps/wAmYoU2dqAt>

WHO:

ALL Area Radio Amateurs are Invited

DESCRIPTION:

Come out and have some fun operating with us. We plan to have four **stations (2 – CW, 2 – SSB)** on the air operating while we are there during the QSO Party.

SATURDAY – Please join us for a Dutch breakfast at the Golden Corral (2155 Riverside Parkway Lawrenceville, GA 30045) starting at 7:30am, or plan to meet us at the EAA 690 Hangar (our regular GARS Meeting location) anytime after 9:30am. We will setup the antennas and equipment and provide some lunch, and be ready to begin operating at 2:00pm (that's the official start time for the GQP on Saturday). We will provide some dinner that evening around 6:00pm, and break for the night around 8:00pm.

SUNDAY – We will come back starting at 9:30am and be ready to begin operating at 10:00am (that's the official start time for the GQP on Sunday). We will provide some lunch and continue to operate until around 4:00pm. Then, we will take down the antennas, pack up the equipment and go home.

For ARES members – helping with setup, or operating at this event, counts as a field qualifying event.

Send questions about the GARS activity to [Pam WB1AKQ](#) or [Dave W4DTR](#)

Beginner's Corner

Ragchewing and a Breath of Fresh Air

Ragchewing is the art of amateur radio conversation. It is more than just a quick contact (QSO) on the air and wishing someone “73” (best regards). It is the art of having a lengthy conversation with either a friend or a stranger who happens to be on the air the same time as you are.

Ragchewing can take place on any amateur band, and can be done by a voice contact, or it can be done digitally. Some of my most memorable moments spend on the air have been ragchewing conversations. I recall talking on the 20-meter band with a station in Texas one summer evening. We chatted for twenty to thirty minutes until the band closed. I do not recall what we discussed, but I still have warm feelings when I remember talking to him.

Several other times I have been on one of the Atlanta area repeaters and have had nice long conversations with local area hams. Sometimes we talked about radio, and sometimes we talked about other subjects, but each time creates a special memory for me. Amateur radio is the original social network and is the best place to make new friends with whom you share a common interest.

This column is about ragchewing and a breath of fresh air. What do these things have in common? Well, the weather is getting warmer and the pollen levels will decrease. That makes is a perfect time to go to a park or somewhere similar, bring your handy talkie (HT) or other radio and get on the air. This can be done day or night, depending on what your schedule is.

I can go to the park by myself if I have to. I have a portable external antenna that I can throw up into a tree and work the local repeaters or get on a simplex channel. It is even better, however, to go to a park with a friend or spouse. My wife (XYL) is a licensed amateur radio operator, too. She is artistically, not technically minded, yet she loves to talk on the radio, especially with me. We both take radios to local parks, find a vacant spot on the dial and ragchew. We have sat on opposite sides of several parks and talked to each other for up to 45 minutes. It is a lot of fun. It gives my wife a chance to get on the air and learn proper operating procedures like identifying call signs every ten minutes and at the end of a QSO.

We have been at several parks and gotten on several repeaters as well as simplex frequencies. We have tried to visit different parks in Gwinnett County. We have even thought of having a “Worked all Gwinnett County Parks Award.” One time we were on 442.100 and someone who was monitoring the repeater joined us. This was great! We enjoyed adding him to our conversation. It became a roundtable discussion.

In 2016, the American Radio Relay League (ARRL) sponsored a “National Parks on the Air” (NPOTA) event that celebrated the 100th year of our National Park System. It was an overwhelming success. Yes, it was done on the HF bands, but if there was a control operator around, Technician Class operators and even non-hams could participate. I was fortunate to be able to attend two events with GARS and had a great time.

NPOTA sparked a great interest in activating parks. Now there is a “Parks on the Air” (POTA) program, <https://parksontheair.com/>. As far as I know contacts do not have to be on HF. VHF, UHF, or higher frequencies should be perfectly acceptable. Check out the web site.

Back to the fresh air. Sometimes we amateur radio operators limit our activities to our “shack” (radio room or operating area) or to our vehicles. Why not take your radio outdoors and make contacts while getting some fresh air?

73 de *David Harden*, KJ4CMY

Net Managers Corner

Monday Night 2 Meter “Want, Swap, Sell, and Information Net”

GARS NEEDS MEMBERS TO SERVE AS NET CONTROL STATIONS!

GARS is a great Amateur Radio service club and we have the membership and awards to prove it. Our club is a very busy and active club and we use the Monday night net to get the information out to our members. Weekly participation is needed to make our net function well. There is only a small group of very dedicated people that make the net happen each week, and we need more members to volunteer to serve as Net Control Stations (NCS) on a rotating basis.

Out of almost 300 members, there are only fifteen primary people who serve as NCS for the GARS net every Monday night. In no particular order, they are:

Norm - WA4ZXV	Kyle - W4KDA	Mitch - N0DIM
Ruth - KM4LAO	Hal - W4IGE	Don - KW4AL
Ray - N4GYN	Sandy - KJ4DRO	John - WB4QDX
Bill - KK4AUA	David - KK4KAF	Kevin - KK4WOG
Chuck - KK4TKJ	Mike - KK4KHS	Donna - KM4FMW

As GARS Net Manager (Chuck KK4TKJ), I really need 26 people to fill NCS positions. I do plan and post the schedule months in advance. Any conditions will be accommodated that you as a rotating NCS need to place on the scheduling of your duties. If your plans change, I can make adjustments for the schedule to work, and I will make those changes happen as soon as I am notified of a problem. As Net Manager, I also send out reminders each week to let the NCS scheduled know he or she is NCS for the next Monday night net. In short, serving as a rotating NCS is a small duty but a great contribution to the club.

The “Want, Swap, Sell Information Net” begins promptly at 19:30 every Monday night and runs about 45 minutes. As a scheduled NCS, you will request the assistance of a volunteer alternate NCS each time you have Net Control. Your simple duties will be to tune in to the GARS repeater, read the script, take a few notes and forward the information to me for record keeping.

Please lend a hand and contact me at KK4TKJ@arrl.net. Sign up to help support the effort that makes GARS the great club that it is.

73 and see you on the Nets!

Chuck McCord, KK4TKJ

Gwinnett Amateur Radio Society – General Meeting Minutes

3/13/2018

President John Davis (WB4QDX) Opened the meeting at 7:00pm and Closed the meeting at 9:25pm
EAA Facility, 690 Hanger Rd. Lawrenceville, GA.

Introductions and Visitors: Visitors were recognized and full Introductions of the [72] attendees followed.

Treasurer's Report: submitted by Sid (N4NQ) for Pam Meridy (WB1AKQ)

The Report was motioned, seconded and unanimously voted as accepted.

Membership Report: Karen Albritton (KI4HPP) reported for the Membership Chair that Membership is at (292).

Program Chair: Rand Collins (N4COR)

Upcoming Programs:

- April - Hal Collier (W4IGE) ARES
- May - David Adcock (KA4KKF) on GARS Field Day

Education: 1st Fox completed at Collins Hill School. Fox Hunt forth coming. Ham Cram March 31st.

GARS Workshop Program: 3/20 at 8:00pm where Bill (WR1TR) will give Introduction to Digital Clients & Modes.

GA QSO Party: 4/14 – 4/15 at EAA Hanger.

May Madness: For Several Days in May for making contacts with GARS members for 'Valuable Prizes'

Field Day: 4th full weekend in June at Harbins Park.

Memorial Day Parade: GARS to Marshall the 24th Dacula Day Parade Monday, May 28th. Look for Volunteer Sign up sheet on the GARS website.

Garzette's: Joe Biddle (AD4PZ) spoke briefly of some GARS historic trivia going back to 1992 and presented 6 years, or 83 Issues of the GARzette from July 2000 back to and including all of 1994 to the club for history retention and web site inclusion.

Awards: Dave (W4DTR) nominates Ruth Willet (KM4LAO) for the Hiram Percy Maxim Award and asks GARS to support. **The Nomination was motioned, seconded and unanimously voted as accepted.** John (WB4QDX) will submit the letter of recommendation by GARS.

Appreciation: George Sensibar (W9RR) Reports that the Letters of appreciation from GARS and ARES were hand delivered by the Chairman of the Board to the top four Executives of the Gwinnett Hospital System for the use of the Facilities used for the GARS Tech Fest 2018. This was well received and usage of the facilities is expected for 2019.

Atlanta Science Festival - Norm (WA4ZXV) Looking for volunteers for this March 24th event.

BREAK

Program:

State of Communications in Gwinnett County Presented by John Davis (WB4QDX)

Submitted by Joe Biddle (AD4PZ) GARS Secretary

Finally
A clog-free gutter
with no fine print.

The Real GUTTER PROTECTOR
NO GLUE, NO OVERSIGHT, GUARANTEED

You'll never have to clean your gutters again. The Real Gutter Protector's Waterloov® System uses a patented design that slows water more effectively and draws water in more completely, with smaller openings that keep out more debris. <http://www.realgutterprotector.com>
